

CONTROL SUMATIVO 1
BASES DE DATOS APLICADA 2
Profesor: Mauricio Figueroa V.

Nombre: _____ Curso: BDY1102

ITEM I) (50%)

Obtener la lista de empleados que tienen un salario superior al promedio de su departamento, incluyendo nombre del empleado, salario, nombre del departamento y gerente.

ITEM II) (50%)

Obtener la lista de productos más vendidos por cada categoría, mostrando el nombre del producto, total vendido, nombre de la categoría y su posición dentro de su categoría (ranking por ventas).

ANEXO

```
